

Kit price list

Every kit holds 10 vials, which is our lowest price per vial. 111 kits, listed A–Z.
All prices are in US dollars and hold until Sept 7.

- A dot next to a size means an independent laboratory has tested that exact size, and we publish the full report — **37 of 111** kits. You can read every report at bbapeptides.com/coa. No dot simply means we have no report for that size; it says nothing else.
